# Florida Playstructures

## PLAYLAND PLAYGROUNDS

Our play lines include metal structures, recycled post and deck structures, education-based play environments, indoor modular playgrounds, and play components

<http://www.playland-inc.com>

## PLAY MART PLAYGROUNDS

Play Mart Playgrounds uses 100% recycled plastic to create bright and colorful play structures and other site amenities that are safer and more durable than conventional wood and metal equipment.

<http://www.playmart.com>

## PLAYGROUND SURFACING

We offer a variety of ADA playground safety surfacing: Pour-n-Place surfacing, artificial turf, recycled rubber mulch, and engineered wood fiber.

## DOG PARK FEATURES

We offer waste stations, dog runs, pour-n-place rubberized decking, drinking stations, fitness areas and canine artificial turf.

## CPSI PLAYGROUND INSPECTIONS

Comprehensive Inspection of your Existing Playground to Verify Compliance with Current ADA Codes. This Service Includes a Complete Report Listing Compliance/Deficiencies Along With Any Cost of Bringing Playground up to Current Compliance.

## SHADE STRUCTURES

Quality tensioned shade structures, shade sails and membrane structures including awnings, canopies, carports and shade sail that can be customized for any commercial, institutional or residential use.

## WATERSPLASH WATER FEATURES

We offer installation of Spray Grounds and Splash Pads for both commercial and residential applications.

<http://www.watersplashnet.com>

## GLACIER POOL COOLERS

Glacier Pool Coolers are a state of the art electric fan-based cooling system that requires no Freon or natural gas to operate. The pool water circulates through the system, removing the heat from the water instantly. The chilled water is pumped back into the pool creating a cool and refreshing experience while swimming during the hot summer months.
